### About

Locke (Loki) is a kind and forgiving young stallion that has proven himself in overcoming obstacles and rising to the occasion of new challenges thrown at him. His quiet soul makes him easy to work with and handle around loose horses and mares. He easily lives with mares or geldings and all are able to be handled in his presence while he is still loose. He has shown a great ability to learn and a willingness to please that inspires all who work with him. His presence demands wonder and immediate admiration when he walks into any space. Vets, techs, and other horse owners constantly comment on his calm demeanor and ease of handling. Locke easily collects and ships for cooled AI, and freezes well for extended holding. We are happy to announce that his first 2 registered foals are both from AI breeding's. For 2025, Locke has one foal due via an AI breeding and three from Live Cover while on a breeding lease in WA. Locke has now been started under saddle and is showing great promise with loads of power and determination to work and get the job done. He continues to build confidence in each new situation as well as a continued ability for ease of handling around all other horses. Locke is quickly becoming my go rider for any situation.
